Licensing declaration:

Please check one of the following statements:

1. The Patent Holder does not hold and does not currently intend to hold any essential patent claim that would be required for compliance with the named SCTE standard.
2. The Patent Holder will grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on fair and reasonable terms and conditions solely to use the patented material necessary in order to manufacture, use, and/or sell implementations of the named SCTE standard.
Note: Negotiations of such licenses are left to the parties concerned and are performed outside of the national and international standards organizations.
3. The Patent Holder is unwilling to grant licenses in accordance with the provisions of 2 above.
- If box 2 is checked, please also check here if the Patent Holder is willing to license without compensation.
- If box 2 is checked, please also check here if the Patent Holder's willingness to license is conditioned on reciprocity. Reciprocity means that, with respect to prospective licensees that have one or more patents or patent claims that also are necessary for the implementation of the same standard, the Patent Holder shall only be required to license such prospective licensees if such prospective licensees will commit to license their essential patent(s) or patent claim(s) for implementation of the same standard under reasonable and non-discriminatory terms and conditions.

NOTE: Patent Holder Organization submits this Patent Statement and Licensing Declaration on behalf of itself and its affiliates. Patents that may be essential to normative references in SCTE standard specifications are subject to the IPR policy of the organization determining the standard reflected in the normative reference. Please refer to Submitter's disclosures and/or declarations provided to those organizations regarding any such patents.
